Mother's Day

Mother's Day is a holiday honoring motherhood that is observed in different forms throughout the world. The American incarnation of Mother's Day was created by Anna Jarvis in 1908 and became an official U.S. holiday in 1914. While dates and celebrations vary, Mother's Day most commonly falls on the second Sunday in May.

In the United States, Mother's Day continues to be celebrated by presenting mothers and other women with gifts and flowers, and it has become one of the biggest holidays for consumer spending. Families might also celebrate by giving mothers a day off from activities like cooking or other household chores.

Did You Know?

More phone calls are made on Mother's Day than any other day of the year. These holiday chats with Mom often cause phone traffic to spike by as much as 37 percent.
