

THE Leavenworth CONNECTION

APRIL 2014

Extending a Warm Welcome to our Suppliers!

By: Beth Kelley

On Wednesday, April 9th, we will be welcoming over 35 guests from a wide range of our suppliers to the Leavenworth Production Facility. Along with our Procurement counterparts, we will be spending the day focused on improving our processes. The day will give us the opportunity to show the suppliers how we use their products and work together on ideas that will make us more efficient. To facilitate parking, we would like to request that the 1st shift employees park towards the middle or back of the parking lot to leave the front few rows accessible for the guests. Thanks!

HALLMARK WELLNESS SCREENING

Hallmarkers can earn 40 health rewards points for completing the on-site wellness screening, which includes comprehensive lab testing and biometric measures (blood pressure, weight, height, and waist measurement). Screenings will be held April 16 from 6-10am and from 3-6pm in the Rosewood room. Fast 9 hours prior and drink 2-3 glasses of water before your screening.

Participants in the screenings, as well as their physicians, will receive a confidential report that reviews results and identifies any concerns. To register:

- **Visit healthrewards.hallmark.com.** If you haven't done so already, you'll be asked to complete an on-line health assessment that takes 5–10 minutes to complete. (You'll receive 25 health rewards points for this step.) When you're finished, click the Hallmark Health logo to return to the home page.

From the home page, choose "Step 2: Find/Report a Physician" for instructions to designate the primary care physician you wish to receive your wellness screening results. A physician is required to participate in the screenings. Assistance in finding a primary care physician is available by calling the Cerner Health Navigators at **(816)201-7000** or by emailing

support@primaryhealthnetwork.com.

- Last, return to the home page and choose "Step 3: Schedule screening." Follow the instructions to choose the screening date and time that works for you.

Participants will receive their report within two weeks of the screening and are encouraged to schedule an appointment to discuss the results with their physician.

Combining the on-line health assessment with the on-site screening, and sharing results for all participants with a primary care physician, are new steps to ensure Hallmarkers receive even more insight and impact from the screening that Hallmark provides.

Covered spouses and domestic partners also may participate in health screenings during April and May at local Quest Diagnostics Patient Service Centers. A home mailing will be sent this month with instructions.

TORNADO DRILLS

The Leavenworth Production Center conducted tornado drills the last week of March to prepare for severe weather season. All employees were in the shelter area within 4 minutes of the alarm sounding and headcount procedures were complete within 8.5 minutes.

Always be prepared for severe weather! Check the message board near the front desk for weather watches and warnings, and be prepared to take cover immediately when the alarm sounds. Once in the shelter area, be sure to check in with the Section Manager or Warden of the area where you are working that day to ensure you are accounted for.

The E. Edwards safety shoe trailer will be on site:
