

THE Leavenworth CONNECTION

FEBRUARY 2013

EDITORS: MEREDITH THOMPSON & LISA ALLEN

Welcome to Leavenworth!

Looking around the plant, you can tell there has been a lot of movement going on. The equipment moves are progressing quickly every day. The movement has not just been with equipment though, our people have been changing and moving around the last month.

Leavenworth has said goodbye to some of those who have left with the KPC in December and has been welcoming new people in January from our Lawrence and Topeka facilities. The webtrons have been running sticker production for several weeks now and the newly transferred Hallmarkers are getting used to the new facility. Other Hallmarkers are moving around within the plant as jobs are posted and filled.

Over the years, there have been consolidations from other areas. Many of us have found Leavenworth as a new home at one time or another. Leavenworth is a specialty plant and it is our people with their unique talents and skills that make this plant special! Make sure to welcome those new faces in your area and that you pass to make everyone feel like Leavenworth is their Hallmark home.

Hallmarkers from Lawrence & Topeka settle in to their new departments in Leavenworth

- 25 LoAnn Hattock
- 28 Jill Boyd

THANK YOU

BLOOD DRIVE RESULTS

We had a registered 27 volunteers and collected 22 units of blood! Thank you to all our volunteers!

SAFETY spot

BE SAFE!!!

Be aware of your surroundings! Leavenworth is a changing environment with lots of construction and equipment changes every day. Steer clear of construction areas and construction crews if possible. Materials in the constructions area are on the floor in unexpected places, take extra precautions when in those areas.
